

IgniteTable™: Your Child's Learning Experience

IgniteTable is an interactive touch table that fosters social-emotional and executive functioning skills development for early learners. As two to four children collaboratively work through educational games, video captures an unbiased view of their interactions for teachers to use to guide instruction.

Why We Use Videos

Videos are a powerful tool to enhance your child's learning experience. Here's why we use them:

- **Personalized Learning:** Videos help us understand your child's unique learning style, enabling us to tailor activities that best suit their needs.
- **Progress Tracking:** By capturing moments of your child's learning journey, we can provide you with detailed updates on their progress and development.
- **Engaging Activities:** Videos make learning more interactive and fun, helping your child stay engaged and motivated.

Who Has Access to Data and Videos

We understand the importance of privacy and strictly control who can access your child's data and videos:

- **Authorized Staff Only:** Only teachers and administrators with active accounts have access to the data and videos captured for a class assigned to them.
- **Family Member Access:** When you, as a family member, are added to your child's account, you will have access to data at any time. Family members, however, do not have access to videos.
- **No Third-Party Sharing:** We do not share your child's data or videos with any third parties without your explicit consent.

Where Data and Videos Live

We prioritize the safety and security of your child's data. Here's where their data and videos are stored:

- **Secure Servers:** All videos and data are stored on secure servers with advanced encryption and protection to prevent unauthorized access.
- **Confidential Storage:** Your child's information is kept confidential and is only accessible to authorized personnel.
- **Regular Audits:** We conduct regular security audits to ensure that our systems are always up-to-date and secure.

Delays gratification while completing a group task

Domain: Self-Awareness / Delays Gratification
Forest Finds 1

INSTRUCTIONS: Document whether you have observed this child demonstrating the skill above.

EXAMPLE: The child resists the impulse to take the immediate reward during a game.

CHILD PARTICIPATED?: Yes

Recording(s): Forest Finds 1 - 03-06-2023

Skill Observed: Yes No

Notes:

Videos are only accessible through our secure, password-protected dashboard.

Online Privacy and Security

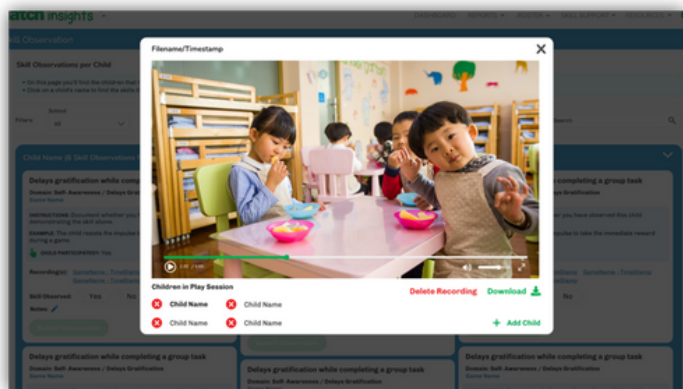

At Hatch Early Learning, protecting your privacy is our top priority. Here's how we ensure your information is secure:

- **Advanced Security Measures:** We use encryption, physical access security, and other technologies to protect your personal information against unauthorized access, disclosure, alteration, or destruction.
- **Continual Enhancement:** We regularly review and enhance our security systems to keep your information safe.
- **Data Collection:** We collect personal information only when you provide it to us, such as when registering or placing an order on our site. We do not collect personal information through cookies; they are used only to improve website functionality.

Our Security Commitment

Hatch is committed to protecting your information. Here's how we ensure the security of your data:

- **SSL Protocol:** We use Secure Sockets Layer (SSL) protocol for all communications to encrypt data.
- **Encryption:** Key data is encrypted both on devices and within our databases to ensure security.
- **Access Control:** We use Access Control Lists (ACLs) and account-based content delivery to ensure only authorized users access data.
- **Compliance:** Our hosted solutions are SOC 2 Type II certified for security.
- **Data Protection:** Personally identifiable information (PII) is stored securely and access is restricted to a small, trained internal team with multifactor authentication.
- **Regular Updates:** Security patches are installed promptly to maintain protection.

For any questions or concerns, please feel free to reach out to us. We are here to ensure that your child's learning experience is safe, secure, and enriching.
