

Hatch Alignment Report

IgniteTable by Hatch™

The **Hatch Alignment Report** continues capturing data aligned to objectives and dimensions, providing a near real-time view of how children's progress in Ignite by Hatch aligns with your selected curriculum and developmental standards.

Accessing Your Report: From the Reports menu under Alignment Reports, click Alignment Report

Filter Options

- Filter by class, domain, or time frame
- Use date range filters to quickly adjust how much documentation you view

Set Checkpoint Dates

- From the Date Range drop-down, select Set Your Checkpoint Dates
- Enter your dates, names, and checkpoint periods
- Organization admins can set dates for all users, while teachers and school admins can create and set their own.

The screenshot shows the 'hatch insights' interface. At the top, there are tabs for 'Dashboards', 'Data Reports', 'Sortable Reports', 'Interactive Reports', 'Router', 'Skill Support', and 'Resources'. Below the tabs, there are filters for 'Class' (All Classes), 'Domain' (All Domains), and 'Date Range' (Current School Year (Aug-Jul)). There are buttons for 'Apply Filters' and 'Clear Filters'. The main area displays a table with columns for 'Child Name', 'Social Emotional', 'Physical', 'Language', and 'Cognitive'. Each column has a sub-column for 'Skill Development' with icons for 'On Track', 'Skill not Observed', and 'No documentation'. The table lists children: Christopher Jackson, David Bailey, Jayden Brooks, Lucy Woods, and Samuel Henderson. Each child has a row of icons representing their skill development status across various domains.

Alignment Report View

Save Your Report

- From the Save Reports drop-down, select Export Data (CSV) or Download Full Report (PDF)
- Displays groupings and filters on screen to easily spot documentation

The screenshot shows the 'CSV Options' dialog box. It has a 'Filters' section with 'Class' (All Classes), 'Domain' (All Domains), and 'Date Range' (Current School Year (Aug-Jul)). There is a 'Post-Export Settings' section with a checkbox 'Automatically mark the exported documents as added to assessment tool.' and buttons for 'Cancel' and 'Download Report'.

The screenshot shows the 'PDF Options - Ignite' dialog box. It has a 'Filters' section with 'Class' (Select a Class), 'Domain' (All Domains), and 'Date Range' (Current School Year (Aug-Jul)). There is a 'Grouping Options' section with three radio buttons: 'Group children with the same documents regardless of date played.' (selected), 'Group children with the same documents only if date played is the same.', and 'Don't group children. Create a separate document for each child.' There is a 'Post-Export Settings' section with a checkbox 'Automatically mark the exported documents as added to assessment tool.' and buttons for 'Cancel' and 'Download Report'.

Documentation Folders

- Documentation appears after a child has played a game on IgniteTable
- Folder number shows how many IgniteTable skills the child has played that align with that curriculum skill

Viewing Documentation

- View skills played and play details
- **Confirm Skill Observation** by watching and rating recordings directly in the pop-up window
- Documentation saves across reports

Sharing Options

- Copy notes and download recordings
- You decide what to share, when to share it, and where it belongs

Folder Color Key

Observed - not yet demonstrated the skill

Observed and demonstrated the skill

Skill has not been evaluated
