

# TeachSmart® Quick Start Guide

## LAUNCHING THE TEACHING GUIDE

### 1 Power on Your Device:

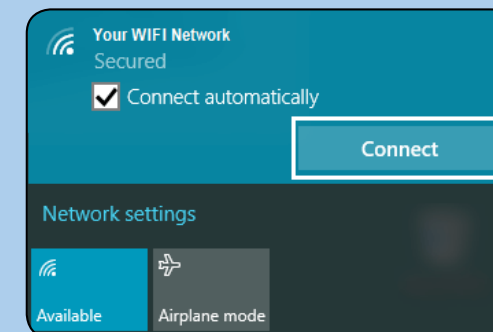

- If you have an **Interactive Whiteboard**, power on your computer, unit (see image), then power on the projector with the included remote OR use the **Standby / On button** on your projector.
- If you have an **Interactive Display**, power on the NUC computer behind the display. The button will glow blue when the NUC is powered on.
- If the display is dark while the NUC button is blue, press the round power button on the right edge of the display itself.

### 2 Connect to Wi-Fi (if you are not yet Internet connected)

- When you see the Windows desktop, touch the Wi-Fi icon in the top-right to connect, or plug in your Ethernet cable.

3

### Open the Teaching Guide

- Find the Teaching Guide shortcut on your desktop and double-tap it to launch the Teaching Guide, which enables you to navigate and open the activities available by way of TeachSmart.

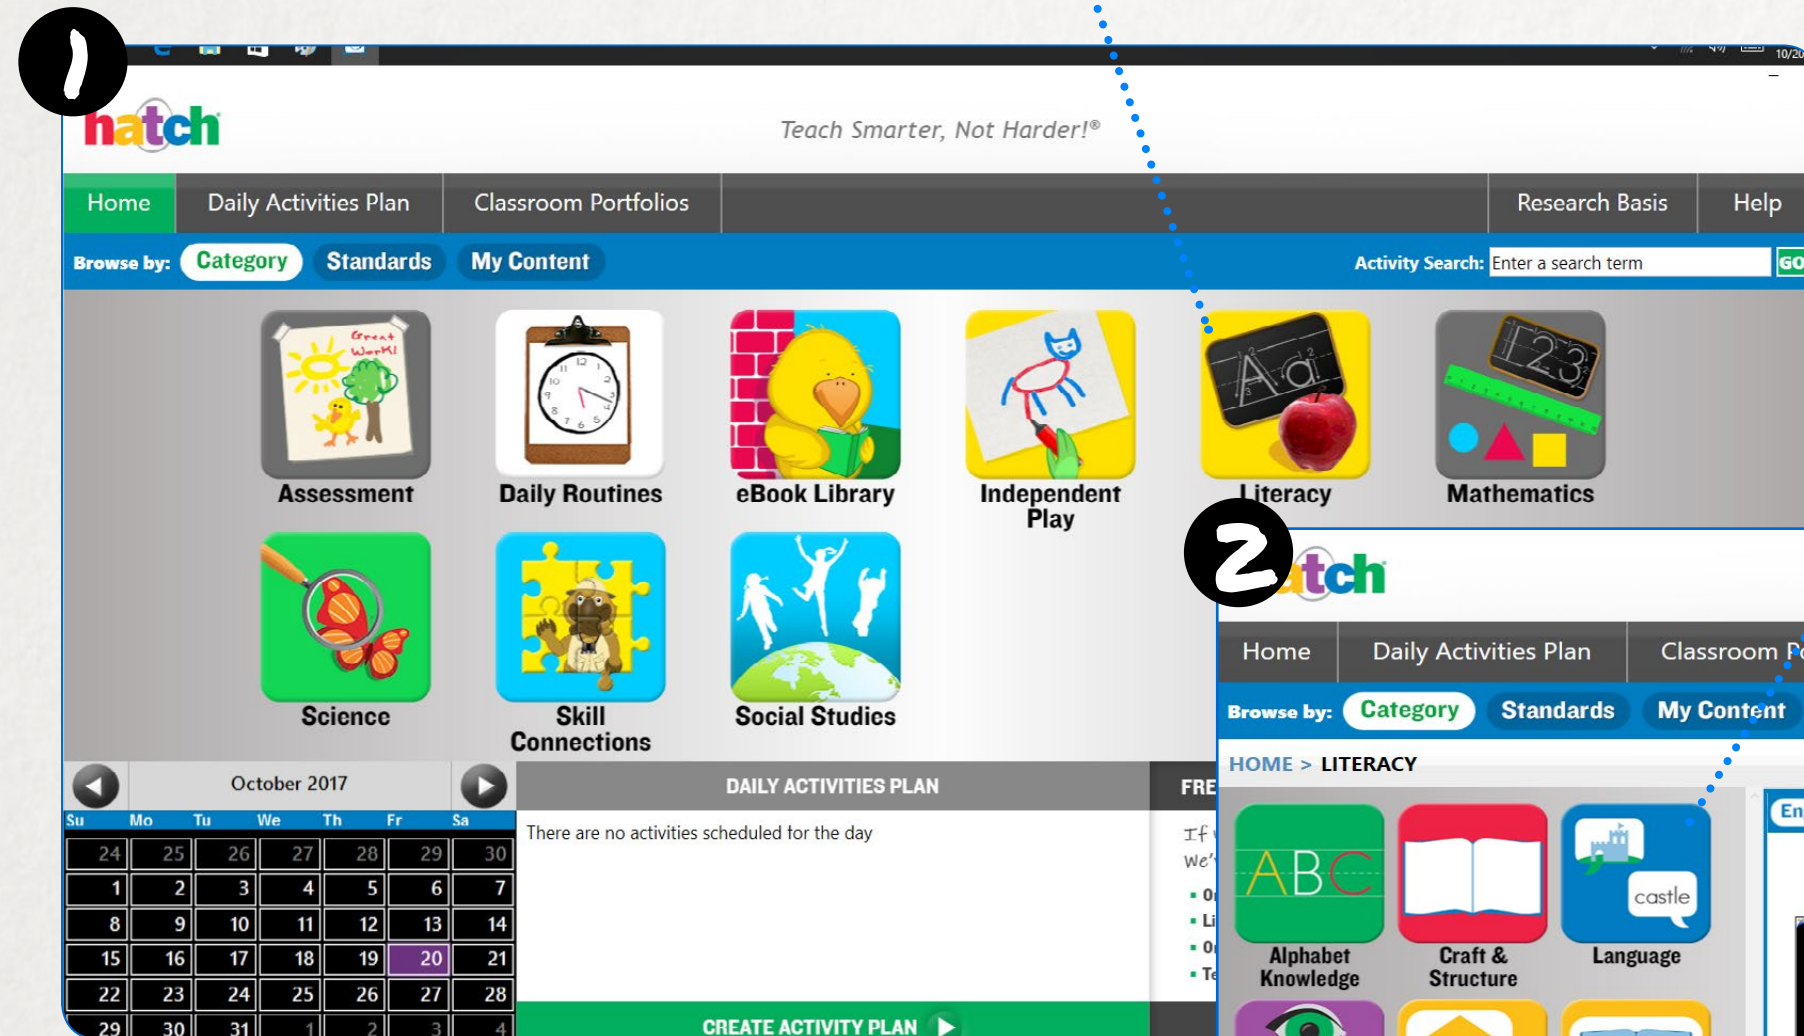

# USING THE TEACHING GUIDE

## 1 Find Activities by Category

- The easiest way to find activities is to from the Skill Category tiles found on the Home Page. Click a Skill Category tile to open the activities that align.

## 2 Narrow Further or Choose an Activity Tile

- After you select a Skill Category (such as, Literacy), all of the Literacy activities will appear (in the center).
- You can further narrow your search by selecting from the skill icons that populate within the left-hand margin (such as Alphabet Knowledge or Language).
- Select the green PLAY NOW button to launch any activity.

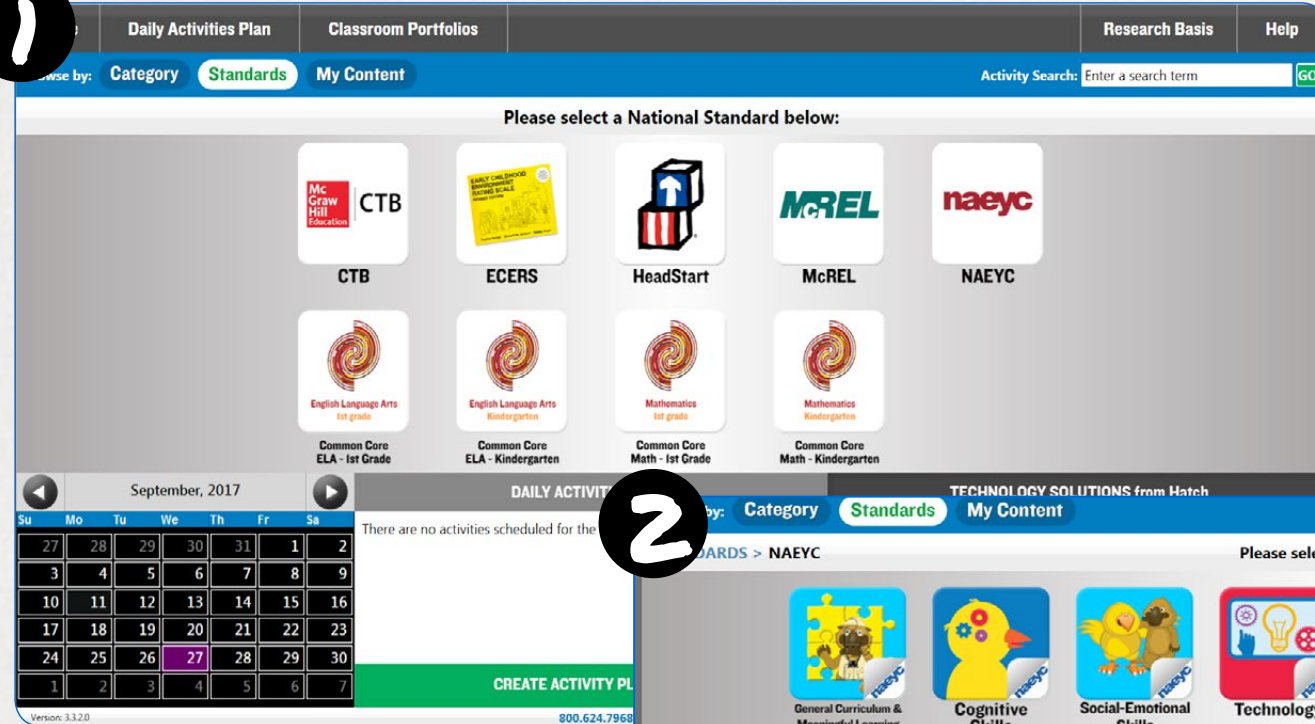

# USING THE TEACHING GUIDE

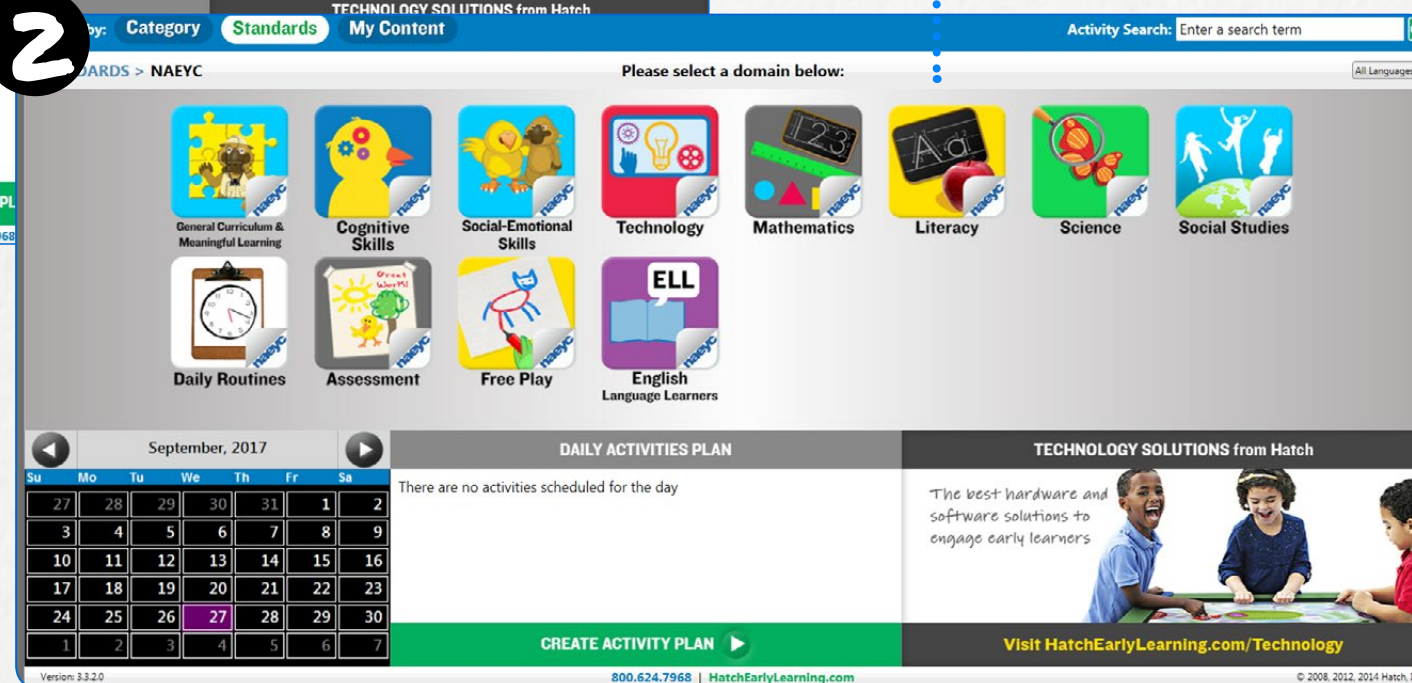

## 1 Find Activities by Standard

- Selecting Standards in the blue menu bar (near the top of the Home Page) enables you to search for activities based on a variety of standards.
- Select the tile that represents your center's needs and requirements.

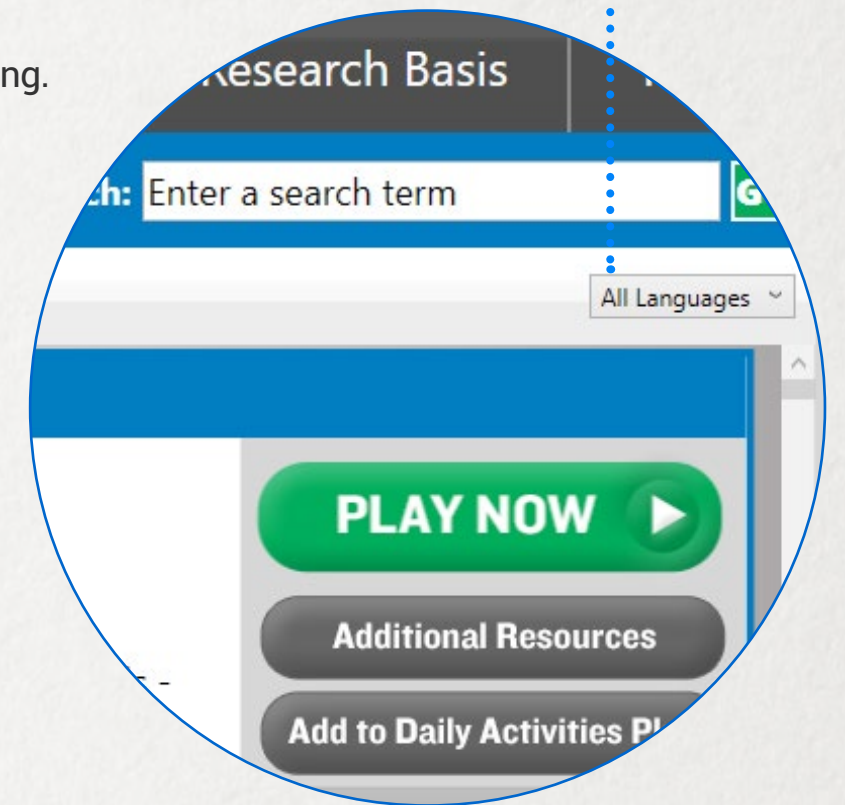

## 2 Browse the Standard

- You will see a new set of tiles representing the standard you have selected.
- Choose the category to begin browsing.

## Find Activities by Language

- Activities are available in English and Spanish.
- Note that once you have begun browsing, you have the option to filter or search by language.

## Free Online Courses

- Need a bit more guidance? Visit Hatch's online **Learning Courses**. Hatch's Learning Management System (LMS) offers courses with completion certificates, reference materials, and contact forms to build your savvy and answer your stickiest questions. Take a course or watch a video in the Video Library. Visit: [LMS.HatchEarlyLearning.com](http://LMS.HatchEarlyLearning.com)
